## Review 2019

FLOWTECH China (Guangdong) 2019 was organized by CHC EXPO. Thanks to the concurrent WATERTech China (Guangdong) 2019, FLOWTECH China (Guangdong) 2019 linked up the upstream and downstream industries (such as sewage treatment, membrane industry, water supply and drainage, complete-set water supply). FLOWTECH China (Guangdong) 2019 had exhibition area of nearly **55,000** square meters in total, brought together **819** exhibitors, and greeted **39,896** professional visitors. It has become the super large exhibition for valves, pumps and pipes in South China.

## Outlook 2020

Setting foothold in Guangzhou, FLOWTECH China (Guangdong) not only leverages abundant resources of its sister exhibition FLOWTECH China (Shanghai), but also makes the best of Guangzhou's strong economic vitality and unique foreign trade advantage, and vigorously taps into the overseas visitor market. The organizer helps exhibitors take root in the South China, showcase their products to professional visitors from major water companies, water industry associations, design institutes and distributors across the South China, seize market shares and expand new markets.

Thanks to the concurrent exhibition of WATERTech China (Guangdong), FLOWTECH China (Guangdong) focuses on a wide range of products for municipal, industrial and civil purposes in the South China. Exhibition scale of FLOWTECH China (Guangdong) 2020 will increase to 55,000 square meters. This grand event will witness more than 1,000 exhibitors and 45,000 professional visitors.

## Brand Lists

## Highlights—Boosting exhibitors to explore the South China market

Take root in the South China, and radiate the whole Southeast Asian market

1

Gain ground in the cooperation, and jointly explore the frontier of water supply technology

2

Upgrade the channel, and open the new horizons of distribution/agency market

3

Municipal and architectural players jointly hold a conference of water supply and drainage designers

4

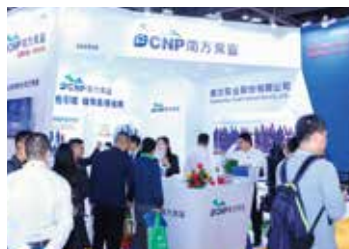

Join hands with GDW, and link up the upstream and downstream segments of complete-set sewage equipment industry chain

5

Assist exhibitors to move ahead towards terminal fields, such as chemical industry and pharmaceuticals industry

6

Join hands with GDW, and link up the upstream and downstream segments of complete-set sewage equipment industry chain

5

Make overall layout for overseas markets, and build a global partnership network

7

Achieve one-to-one matchmaking, and precisely satisfy the demands

8

Invite authoritative organizations to take group tours, and enhance visitors' professionalism

9

## Target Visitors

### Governments/Public Utilities

- Municipal water supply and drainage companies
- Sewage plants/waterworks
- Other municipal suppliers/public utilities suppliers

### Water Conservancy

- Agriculture and forestry irrigation
- Pump station renovation
- Drinking water engineering

### Design Organizations

- Research and design organizations
- Design institutes
- Consulting companies

### Industrial End Users

- Oil/gas/thermal power/nuclear power/thermo electric companies
- Coating/galvanizing companies
- Mining/ceramics/brick making companies
- Oil refining/coking companies
- Steel and iron/smeltering companies
- Metal finishing/heat treatment companies
- Electronic components/battery coatings/printing ink companies
- Pesticide/gunpowder companies
- Food/brewing companies
- Cement/glass companies
- Textile/printing and dyeing companies
- Pharmaceutical/biological/chemical companies
- Rubber/leather companies
- Printing/paper mills

### Distributor/Agent

- |               |            |       |
|---------------|------------|-------|
| • Distributor | • Exporter | • OEM |
| • Agent       | • Trader   | • ODM |
|               |            | • OBM |

### Engineering Companies

- Environmental protection engineering
- Construction engineering
- Environmental service
- "Three Wastes" treatment engineering
- Decoration companies
- Water treatment engineering companies
- Water supply and drainage engineering companies
- Architectural machinery and electrical turnkey projects
- Chemical engineering companies
- Medical engineering companies
- Fire protection engineering companies
- HVAC engineering companies
- Water supply package equipment suppliers

## Exhibits Profile

Pumps  
Valves  
Pipes/Pipe Joints  
Actuators  
Intelligent Water Supply Equipment  
Pump/Valve Accessories

## About Us

Founded in 2007, Shanghai CHC Exhibition Co., Ltd. (CHC Expo) is a part of the CHC Group, as well as the exclusive representative of the Global Brand Exhibition of RAI International Exhibition and Congress Centre in Greater China. As an event organizer with over a decade of experience in planning and hosting professional brand exhibitions in China and overseas, CHC Expo adheres to the spirit of craftsmanship and focuses on the B2B2C field. It is committed to building an excellent international trade platform for environmental industry.

## Sister Exhibition

世环会  
WieTec  
系列展

Headquartered in Guangzhou, FLOWTECH China (Guangdong) radiates its great influence throughout the South China and the Southeast Asia. Taking advantage of the internationalism and influence of its sister exhibition FLOWTECH China (Shanghai),

FLOWTECH China (Guangdong) further strengthens the leading position of itself and FLOWTECH China (Shanghai) in the fluid transport industry. Exhibition scale of FLOWTECH China (Shanghai) 2020 will be expanded to 70,000 square meters. FLOWTECH China (Shanghai) 2020 will gather more than 1,200 exhibitors, and more than 60,000 professional visitors are expected to join this event. It is a renowned professional pump, pipe and valve exhibition in the industry.
